

Summary of Important Bulletin Indicators

1- Total Imports:

The value of **Total Imports** of Sri Lanka during 2007 was (11401.0) million US\$ with an increase of (1533.3) million US\$ (15.5%) from the previous year. The import value of 2006 was (9867.7) million US\$ with an increase of (1552.5) million US\$ (18.7%) from the year 2005.

2- Total Exports:

The value of **Total Exports** of Sri Lanka during 2007 was (7675.2) million US\$ with an increase of (845.7) million US\$ (12.4%) from the previous year. The export value of 2006 was (6829.5) million US\$ with an increase of (664.1) million US\$ (10.8%) from the year 2005.

The Bases Used in Compiling, Processing, Publishing of Imports and Exports' Statistics

1 – Source of Information :

The custom declarations of imports provided by the Department of Customs represents the only and basic source of the statistics included in the Trade Statistics - 2007 Sri Lanka.

All data have been extracted by DoC from Department of Customs. Regular meetings and continuous consultations are always held between the concerned divisions in both the DoC and the Department of Customs with the aim to improving the flow of data.

2 – Trade System :

The Department of Commerce follows a Special System as a base for gathering foreign trade statistics so as to include imports and exports of all commodities and goods.

This bulletin does not include some materials such as commodities in transit, banknotes etc. as well as some export stages.

3 – Classification Of Commodities :

The basic data on foreign trade included in this bulletin are based on the 8-digit code of Harmonized System for classification of commodities.

The following is an index of the Harmonized System Code that is designed to help users of data to locate specific items of interest .

- Section, Chapter, .. etc.. is used as technical terms here.

4 – Units of Measurement

The amount of any commodity is expressed in terms of net weight. Yet, other commodities are shown in unit numbers as necessary, such as (horses, cars and watches) , in addition to their weights in kilograms . The value of these commodities is in Sri Lankan Rupees or US \$.

5 – The Most Important Definitions and Terminology Used in Imports' / Exports' Statistics :

Net Weight

The total weights (in KG) of the commodity are after excluding the wrapping and packing weight. For publishing purposes, net weight was measured in metric tons or thousand metric tons for some tables.

Value of Imports & Exports

The value of imports is calculated on C.I.F. basis . The value represents the cost, insurance, freight and other costs incurred until delivery of goods to the port of entry, apart from the customs dues .

6 – Sources of Changes

Foreign Trade data are subject to several changes which may arise from various sources. Among these are errors in the reporting and / or processing of information as to commodity classification, net weight, values and other statistical factors. The procedures used to compile these statistics include clerical and computer processing checks designed to protect the accuracy of the statistics to the fullest practicable extent. The foreign trade statistics may also experience changes in figures depending on the time at which the DoC receives the data from the Department of Customs. However, these figures are corrected in the following publications issued by DoC.

For Correspondence and inquiries, post the following address:

Department of Commerce
Statistics Division
4th floor, “Rakshana Mandiraya”, Vauxhall Street, Colombo 02,
Sri Lanka
Tel: (0094) (112329733) , (0094) (112436114)
Tele- Fax: (2430233), (2382490)

The price of the Trade Statistics 2007 Sri Lanka is 300.00 S L Rs# or the equivalent.

The latest import data can be found on the world wide web : www.doc.gov.lk
